

Hello, I'm Lev Fokichev, a *Front End Developer* based in *London*. I create captivating experiences for the web.

EXPERIENCE

Freelance Full Stack Developer June 2023 – Dec 2024
Working with variety of clients on web applications across the full stack.

Involve Education (form. Practice Pal Music) August 2022 – June 2023
Full Stack Developer

- One of first employees, contributed to userbase growth of 885% (3500 to 31000) through adding key functionality.
- Authored 65,000 lines of quality code within the MERN/TypeScript stack.
- Led crisis management during a surge in user onboarding by coordinating the team's efforts and promptly resolving critical bugs.
- Streamlined internal processes through custom API solutions (i.e. automated invoicing through Pipedrive and an invoicing platform).

Involve Education (form. Practice Pal Music) December 2021 – August 2022
Junior Full Stack Developer
