EXPERIENCE

Freelance Full Stack Developer   June 2023 – Current

Working with variety of clients on web applications across the full stack.

Involve Education (form. Practice Pal Music)   August 2022 – June 2023

Full Stack Developer

- One of first employees, contributed to userbase growth of 885% (3500 to 31000) through adding key functionality.
- Authored 65,000 lines of quality code within the MERN/TypeScript stack.
- Led crisis management during a surge in user onboarding by coordinating the team's efforts and promptly resolving critical bugs.
- Streamlined internal processes through custom API solutions (i.e. automated invoicing through Pipedrive and an invoicing platform).

Involve Education (form. Practice Pal Music)   December 2021 – August 2022

Junior Full Stack Developer
